

& Nine More Good Reasons

WHY OUR LADY OF LORETO SHOULD BE SAVED
& ADAPTIVELY REUSED

Our Lady of Loreto is a powerful work of art & architecture created by uniquely talented immigrant artists and artisans

Our Lady of Loreto's survival fulfills a promise the Diocese made to the STATE and to THIS COMMUNITY in 2010.

Our Lady of Loreto represents continuity through change & stands as a tribute to more than a century of immigrants who have lived, worked & worshipped here.

Our Lady of Loreto has a claim on the human spirit that belongs to Brooklyn and to this neighborhood where cultural landmarks are few and far between.

Our Lady of Loreto offers cultural support to the 66 units of affordable housing already on this site; it can enrich lives and anchor this neighborhood when more housing is built.

Our Lady of Loreto belongs to people in EVERY walk of life and fills a FUTURE need for beauty and cultural self-expression that knows no distinctions of class, income and language. **We ALL deserve awe-inspiring spaces around us, put to creative use!**

Saving Our Lady of Loreto serves sustainability goals! Historic structures should NOT end up in landfills!!

Saving Our Lady of Loreto is not a one-group struggle. All of us can and WILL celebrate how it came to be here and the values it represents. **TOGETHER we can AND WILL tell its story of a need for respect, beauty and CREATIVITY in our lives.**

Our Lady of Loreto is NOT just for today. It will carry its transcendent message into the FUTURE, adapting to the cultural needs of ALL its communities.

LET'S TAKE ITS POWERFUL MESSAGE INTO ANOTHER CENTURY!
